

QTSO Memorandum

MEMO

NUMBER: 2024-034

TO: QIES State Coordinators

CC: CMS Central and Regional Office Contacts

FROM: ATG, QIES Technical Support Office

DATE: **AUGUST 14, 2024**

SUBJECT: LTC REGULATION SET CORRECTION

CFR information was incorrect in the LTC version 20.00 regulation set for the tags listed below in the CFR Changes table.

For ASE-Q, a thin install file is provided.

Until ASE-Q is updated, if you cite one of the affected tags, be sure to print the CMS-2567 from ACO in order for the CFRs to print on the form. Once ASE-Q is updated, you can print the CMS-2567 form from either ASE-Q or ACO.

For ACO, an automatic correction will be applied on August 14 and no state action is required.

Auto-update Posting

For states using auto-upgrade, the ASE-Q upgrade will be posted by COB on Wednesday August 14. For CMS Location users, all applications will be deployed automatically to your computers through the auto-upgrade process beginning with logons after close of business on Wednesday, August 14.

Thin Install Posting (for State Agencies not using auto-upgrade)

The regulation set correction will be provided to your state agency as a standard ASPEN thin install. The planned posting of the thin install to the ASPEN website is by close of business on Wednesday, August 14. The download link below will be active once the thin install file is posted on August 14.

Note: No action is necessary by CMS users – these upgrades are automatically applied to your CMS systems and should not be downloaded separately from this link.
