Additional Items Required by States for Nursing Home MDS 3.0 Assessments 2023 Implementation

States can require additional CMS defined items on their Quarterly (NQ) or PPS (NP) assessments.

Note: This is a change to the items on the state's OBRA quarterly (NQ) and/or PPS (NP) records. It is not a different type of comprehensive (NC) assessment. These items must be sent in on the NQ or NP assessments. If providers send in an NC that is missing any comprehensive items, such as the Section V items, it will be rejected. CMS does not create state-specific printable item subsets.
