Internet Quality Improvement & Evaluation System (iQIES)

Inpatient Rehabilitation Facility Patient Assessment Instrument (IRF-PAI) Error Message Reference Guide

Version 2.1

October 1, 2023

Table of Contents

1.   Introduction

This user guide addresses Inpatient Rehabilitation Facility Patient Assessment Instrument (IRF-PAI) error messages and troubleshooting.

2.   Troubleshooting – iQIES Service Center

The iQIES Service Center supports users working within the various iQIES components: Survey and Certification (S&C), Patient Assessment, and Reporting.

Always attempt to determine the nature or source of a particular problem in order to contact the appropriate department for assistance and give detailed information about the issue.

For assistance accessing iQIES: Contact the iQIES Security Officer (SO) for your organization.

For technical support: Contact the iQIES Service Center:

Phone: 800-339-9313
email: iQIES@cms.hhs.gov

For more information on iQIES: Refer to the QIES Technical Support Office (QTSO) and the Quality, Safety, & Education Portal (QSEP).

iQIES reference materials include:

- Links to Training Videos for Providers
- Assessment Management User Manual
- Quick Reference Guides
- Onboarding Guide
- Managing User Information

3.   Submission ERROR Messages for IRF-PAI Data

During the file submission process, iQIES displays a limited number of error messages. iQIES errors are detailed in Step 5, Error Messages.

Additionally, you may experience error messages, warnings, or failures from other software or hardware components used in association with iQIES. For those situations you should refer to the appropriate vendor-provided documentation.

4.   File Processing Error Messages for IRF-PAI Data

An IRF-PAI **Provider Final Validation Report** is automatically generated within 24 hours of successful submission of a file. A file may include one or more records. The Report details the errors, if any, in the submitted records within the file. Go to the **Reports** section in iQIES to view this report.

Each error is noted on the report by its numeric identifier and severity (**Fatal** or **Warning**). The report also includes a brief description of the error and notes the submitted item values that triggered the error.

Notes:

- The **IRF-PAI Submitter Final Validation Report** must be requested by the user who submitted the file.

- Records with fatal errors will be rejected. All fatal errors in a file or record must be corrected and the file or record must be resubmitted.

- All warning errors must be reviewed and corrected if appropriate, to ensure the data uploaded is accurate and complete.

- Providers who submit files for multiple providers receive one **IRF-PAI Provider Final Validation Report** for each provider for which records were submitted in a file.

- Certain fatal errors in the submitted file or one of its records can prevent the system from creating and placing the automatically-generated **IRF-PAI Provider Final Validation Report** in the Provider's folder. To view these errors, the submitter can request the **IRF-PAI Submitter Final Validation Report** in iQIES.

5.   Error Messages

This section lists the error messages in order by **Error ID** followed by **Error Message**. The severity and type of error message are shown. A type of error can help determine the solution.

The first four explanatory columns are followed by three columns explaining the potential cause, tips to correcting the error, and finally actions to take.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-901	Invalid Zip File: Unable to process the submitted file.	Fatal	**System**	• The submitted file is not formatted properly. The contents of the file could not be extracted. • The submitted file is not a .zip file. • The submitted .zip file is not compressed. • The submitted file is a .zipx file. • The submitted file is empty. • The submitted file is encrypted.	• The submitted file must be a properly formatted .zip file. No other compression format, such as .zipx, is valid. • The .zip file must not contain subfolders. • The name of the .zip file must not exceed 260 characters, including the extension (.zip). • The name of each XML file included in the .zip file must not exceed 200 characters, including the extension. • The name of an XML file must not include special characters.	• Contact the software vendor. • Refer vendor to the data specifications for file submission requirements. • Recreate and/or rename the .zip file and resubmit.
-902	Invalid XML File: The submitted file does not have a valid XML file name extension.	Fatal	System	Each IRF-PAI record submitted to the iQIES system must be a properly formatted XML file.	• The name of an XML file must not exceed 200 characters, including the extension (.xml). • The name of an XML file must not include special characters.	• Contact the software vendor. • Refer vendor to the data specifications for file submission requirements. • Recreate and/or rename the .xml file and resubmit.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-903	Required Item Missing or Invalid: Based on the IRF-PAI Data Specifications in effect on the discharge date of this record, this item is required to be submitted.	Fatal	System	• A valid value was not submitted for this item. Based upon the IRF-PAI Data Specifications in effect for this record, this item is required. • The length of the value submitted for this item exceeds the maximum length allowed.	Review IRF-PAI data specifications and ensure all required items are included in the XML file.	Make appropriate corrections to the record and resubmit.
-904	Invalid XML File Format: The submitted file is not structured properly or contains tags longer than 30 characters and cannot be processed.	Fatal	System	The submitted record is not a properly structured XML file and cannot be processed.	• Beginning and ending tags must enclose the entire assessment record. • Beginning and ending tags must enclose each item of the assessment record. • Tags must not exceed 30 characters.	• Contact the software vendor. • Make appropriate corrections to the record and resubmit.
-905	Invalid Target Date: Unable to calculate the target date due to missing or invalid required field.	Fatal	System	The iQIES System is unable to calculate the target date of this record because the value submitted Discharge Date (40) is missing or invalid.	Verify that the Discharge Date (40) is a valid date.	• Make appropriate corrections to the record and resubmit. • Refer to the current data specifications to identify the acceptable values for this item.

10.01.2023

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-906	No Match Found: No existing record was found in the iQIES database for the submitted modification/ inactivation record	Fatal	**System**	The values submitted in this modification or inactivation record do not match the values submitted in a previously accepted record in iQIES.	To identify the record requiring modification or inactivation, the following items must match the corresponding items of a previously accepted record: • Patient First Name (4) • Patient Last Name (5A) • Birth Date (6) • Social Security Number (7) • Gender (8) • Discharge Date (40)	• Make appropriate corrections to the record and resubmit. • Refer to the data specifications in effect for this record to identify the acceptable values for this item.
-907	Duplicate Assessment: The submitted record is a duplicate of a previously submitted record.	Fatal	**System**	The submitted record is a duplicate of a previously submitted record for this patient, or the admission and/or discharge date of this record overlaps a previously accepted record.	• Duplicate records match on the following items: • Patient First name (4) • Patient Last name (5A) • Gender (8) • Birth Date (6) • Social Security Number (7) • Admission Date (12) Discharge Date (40) • DO NOT resubmit an original after a modification. If the modification was in error, you must submit another modification to correct the error.	• Determine why this record was submitted multiple times. • DO NOT resubmit this record as it is already in the database.

7

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-908	CMG Calculation Issue: Unexpected error returned from the Grouper. No CMG code could be calculated.	Fatal	System	The CMG encountered an unexpected error and was unable to calculate a CMG code.	Make appropriate corrections to the record and resubmit. If one or more of the dates are prior to 10/01/2012, do not submit the record.	Contact the iQIES Service Center: 800.339.9313 iQIES@cms.hhs.gov Resubmit the record after the new CMS is available in iQIES.
-909	Birth Date Issue: The year of the Birth Date (6) is the same as the year of Admission Date (12).	Fatal	System	The birth year is invalid.	The year of the Birth Date (6) must not be the same as the year of the Admission Date (12).	• Make appropriate corrections to the record and resubmit. • Refer to the data specifications in effect for this record and CMG Grouper documentation to identify the acceptable values for this item.
-910	Invalid Age: The calculated age is less than zero (0).	Fatal	System	The calculated age is invalid.	Age must not be less than zero.	• Make appropriate corrections to the record and resubmit. • Refer to the data specifications in effect for this record and CMG Grouper documentation to identify the acceptable values for this item.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-911	Invalid Age: The calculated age is greater than 140 years.	Fatal	**System**	The calculated age is invalid.	Age must not be more than 140 years earlier than the admission date.	• Make appropriate corrections to the record and resubmit. • Refer to the data specifications in effect for this record and CMG Grouper documentation to identify the acceptable values for this item.
-912	Invalid Impairment Group: The Admission Impairment Group (21a) is invalid. The Impairment Group code must be in the Impairment Group Code table found in the IRF-PAI manual.	Fatal	**System**	The submitted Admission Impairment Group (21a) is not a valid value found in the Impairment Group table.	Review the valid Impairment Group Code values in the IRF-PAI manual.	• Make appropriate corrections to the record and resubmit. • Refer to the data specifications in effect for this record to identify the acceptable values for this item.
-913	Invalid Item Length: The length of the text submitted for this item exceeds the maximum length allowed.	Fatal	**System**	The text submitted exceeds the maximum length allowed for this item.	Review the item length listed in the data specifications for the item.	• Make appropriate corrections to the record and resubmit. • Refer to the data specifications in effect for this record to identify the acceptable values for this item.
-914	Invalid Format: The value submitted for this item contains one or more nonprintable or control characters.	Fatal	**System**	The value submitted for this item is invalid; it cannot contain nonprintable or control characters.	N/A	Make appropriate corrections to the record and resubmit.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-915	Multiple Matches Found: The submitted record matches multiple records in the database. Please contact the Help Desk.	Fatal	**System**	This record matches multiple records in the database. The modification or inactivation was not performed.	N/A	Contact the iQIES Service Center.
-916	Invalid Submission: This record was submitted more than 24 months after the facility's closed date.	Fatal	**System**	The submission date of this record is more than 24 months after the date the facility closed.	N/A	No action is required. You cannot submit this record.
-917	Invalid Submission: The target date (Discharge Date (40)) of this record is after the provider's closed date.	Fatal	**System**	The Discharge Date (40) submitted is after the date the provider closed.	Verify the Discharge Date (40).	• If the submitted Discharge Date is valid, you cannot submit this record. • Otherwise, make appropriate corrections to the record and resubmit.
-918	Invalid Submission: The target date (Discharge Date (40)) of this record is more than 24 months prior to the submission date.	Fatal	**System**	The target date value submitted in this record is more than 24 months prior to the date the record was submitted.	Verify the Discharge Date (40).	• If the submitted Discharge Date is valid, you cannot submit the record. • Otherwise, make appropriate corrections to the record and resubmit.
-919	Invalid Target Date: The calculated target date is greater than the submission date.	Fatal	**System**	The target date value calculated by the iQIES system is later than the date the record was submitted.	Verify the Discharge Date (40).	Make appropriate corrections to the record and resubmit.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-1001	Invalid FAC_ID: The Facility (FAC_ID) submitted in this record does not identify a valid provider in the CMS National database. Please contact the Help Desk	Fatal	**Format**	The Facility ID (FAC_ID) in the submitted record is not associated with a valid provider in the iQIES system.	• The FAC_ID must be the system-assigned FAC_ID. • The value of the submitted FAC_ID must match the FAC_ID in the iQIES system for the facility. • The submitted FAC_ID must be associated with the state submitted in the STATE_CD control item	• Verify that the FAC_ID value and the STATE_CD value are correct. • Make appropriate corrections to the record and resubmit.
-1002	Invalid TRANS_TYPE_CD: The Transaction Type Code (TRANS_TYPE_CD) submitted in this record does not identify a valid transaction type.	Fatal	**Consistency**	The submitted Transaction Type Code (TRANS_TYPE_CD) value is not valid.	N/A	• Contact your software vendor. • Make appropriate corrections to the record and resubmit. • Refer to the current data specifications for this record to identify the acceptable values for this item.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-1004	Invalid Numeric Format: Only whole numbers and specified special characters are valid for this item.	Fatal	**Format**	The value submitted for this item is invalid; it is not one of the numeric values or special characters allowed.	• Leading zeroes may be included or omitted from the submitted value as long as the resulting length of the value does not exceed the allowed maximum length for the item. • Numbers with a decimal point and one or more decimal places are not allowed for this item. • Signed numbers (+ for positive or – for negative) are not allowed for this item.	• Make appropriate corrections to the record and resubmit. • Refer to the current data specifications in effect for this record to identify the acceptable values for this item.
-1005	Invalid Format: Embedded spaces and dashes are invalid for this item.	Fatal	**Format**	The value submitted for this item is invalid; it cannot contain embedded spaces or dashes.	Refer to the current data specifications in effect for this record to identify the acceptable values for this item.	• Make appropriate corrections to the record and resubmit.
-1006	Invalid Format: Only numeric characters 0-9, letters A-Z, or letters a-z are valid for this item. No spaces are allowed.	Fatal	**Format**	The value submitted for this item is invalid.	• If the value submitted is not one of the specifically allowed values for this item in the data specifications, the value may only contain alphanumeric characters 0-9, A-Z or a-z. • No spaces are allowed in this item.	• Make appropriate corrections to the record and resubmit. • Refer to the current data specifications in effect for this record to identify the acceptable values for this item.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-1007	Invalid Format: Only numeric characters 0-9 and specified values are valid for this item.	Fatal	**Format**	The value submitted for this item is invalid.	• If the value submitted is not one of the specifically allowed values for this item in the data specifications, the value may only contain numeric characters 0-9. • No spaces are allowed in this item.	• Make appropriate corrections to the record and resubmit. • Refer to the current data specifications in effect for this record to identify the acceptable values for this item.
-1008	Invalid Format: Only numeric characters 0-9, letters A-Z, letters a-z, dash (-), at sign (@), single quote ('), forward slash (/), plus sign (+), comma (,), period (.), underscore (_), ampersand (&) and embedded spaces are valid for this item.	Fatal	**Format**	The value submitted for this item is invalid.	• This item may only contain characters 0-9, A-Z, a-z, dash (), at sign (@), single quote ('), forward slash (/), plus sign (+), comma (,), period (.), underscore (_) and ampersand (&). • Embedded spaces are allowed. Only those spaces surrounded by any of the characters listed above are valid.	• Make appropriate corrections to the record and resubmit. • Refer to the current data specifications in effect for this record to identify the acceptable values for this item.
-1010	Invalid Value: The value submitted for this item is not an acceptable value.	Fatal	**Format**	The value submitted for this item is invalid; it is not one of the numeric values or special characters allowed in the data specifications	Refer to the current data specifications in effect for this record to identify the acceptable values for this item.	• Make appropriate corrections to the record and resubmit.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-1011	Invalid Correction Number: The submitted Correction Number value is not one number greater than the number on the original or previously corrected record.	Fatal	**Consistency**	The submitted Correction Number (CORRECTION_NUM) is invalid for this record.	The Correction Number in this modification/inactivation record must be 1 number greater than the Correction Number on the original or previously corrected record.	• Make appropriate corrections to the record and resubmit. • Refer to the current data specifications in effect for this record to identify the acceptable values for this item.

-1012	Invalid Birth Date: Birth Date must contain a valid date in YYYYMMDD, YYYYMM, or YYYY format.	Fatal	**Format**	The birth date submitted in this item is invalid or formatted improperly.	• Birth Date (6) must be submitted in YYYYMMDD, YYYYMM, or YYYY format.
					  ○ If a date is submitted in YYYYMMDD format, it must be 8 characters in length and each of the 8 characters must contain a number 0-9.
					  ○ YYYY and MM must be zero-filled, where appropriate.
					• The invalid date is displayed on the Final Validation Report in the exact format that it was submitted.
						• Contact the vendor of your encoding software to correct the formatting of dates.
						• Make appropriate corrections to the record and resubmit.
						• Refer to the current data specifications in effect for this record to identify the acceptable values for this item.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-1013	Invalid Impairment Group Code: The format of the submitted Impairment Group Code is not valid.	Fatal	**Format**	The Impairment Group Code value submitted for this record is invalid.	Contact your software vendor, if necessary.	• Make appropriate corrections to the record and resubmit. • Refer to the current data specifications in effect for this record to identify the acceptable values for this item.
-1014	Required Item Is Blank: The value for this required item is blank.	Fatal	**Consistency**	A blank value was submitted for this required item.	Contact your software vendor, if necessary.	• Make appropriate corrections to the record and resubmit. • Refer to the current data specifications in effect for this record to identify the acceptable values for this item.
-1015	CCN Mismatch: The submitted (1B) on the assessment does not match the CCN stored in the CMS National database for the facility.	Warning	**Consistency**	The Medicare Provider Number (CMS Certification Number) (1B) in this record differs from the CCN that is in the iQIES System database for this provider. The value submitted in 1B does not match the CCN on file in the iQIES System for the provider identified by the FAC_ID in this record.	**Example:** The CCN was entered incorrectly into item 1B either manually or by the encoding software that created the submission file. The facility's CCN was changed by CMS, but you are still submitting with a user ID associated with the old CCN. Despite the CCN submitted in item 1B, if you submit with your old user ID, you are still submitting for your old CCN.	• Contact your Regional Office to identify the correct CCN for your facility. • Verify that the CCN in the encoding software is correct. • If the facility's CCN changed, register for a new user ID for the new CCN. • If you need additional assistance, contact the Help Desk.

-1016	Invalid E-Mail Address Format: An e-mail address may contain any printable characters except single-quotes (') and double-quotes (").	Fatal	**Format**	The value submitted for this item is invalid. An e-mail address may not contain single quote (') or double-quote (") characters.	Refer to the data specifications in effect for this record to identify the acceptable values for this item.	• Make appropriate corrections to the record and resubmit.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-1017	Invalid Format: 'E' codes are not allowed.	Fatal	**Format**	The value submitted for this item is invalid. 'E' codes are not allowed.	Refer to the data specifications in effect for this record to identify the acceptable values for this item.	• Make appropriate corrections to the record and resubmit.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-1023	Invalid CCN Length: The CMS Certification Number (CCN) (1B) must be exactly 6 characters.	Fatal	**Format**	The Facility Medicare Provider Number (CMS Certification Number) (1B) submitted is invalid.	The CCN must be 6 characters in length.	Make appropriate corrections to the record and resubmit.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-1024	Facility Information Updated: Submitted value(s) for the item(s) listed are not the same as the values in the iQIES database. The database has been updated.	Warning	**Consistency**	The submitted facility information differs from what is stored in the iQIES database for this provider; the database was updated with this new information.	If not correct, contact your software vendor.	• Verify that the facility information in the encoding software is correct.
-1030	Patient Provider Updated: Our records indicated that a different provider previously cared for this patient. The provider associated with this patient has been updated.	Warning	**Consistency**	A different provider submitted the previous record for this patient. The iQIES System was updated to reflect the patient's new provider of care.	No tip available	No action is required.

| -1031 | Patient Information Mismatch: Submitted value(s) for the item(s) listed do not match the values in the iQIES database. If the record was accepted, the patient information in the database was updated. Verify that the new information is correct. | Warning | Consistency | Based on resident (patient) matching criteria, patient information in this record, though not identical, is similar enough to patient information in the iQIES System that a match was identified. If the record was accepted, one or more fields in the iQIES System were updated with the new or previously missing information. | **Example:** The patient's first name was spelled differently or the facility is now submitting information that was previously unknown (such as the Medicare or Medicaid number).

Definition: Resident (patient) matching criteria: Criteria used to match key patient-identifying information in a record with an existing patient known to the iQIES System.

Tip: The resident match process may update the following patient information:

• last name
• first name
• birth date
• death date
• social security number
• Medicare Number
• Medicaid number
• Gender
• Race/ethnicity
• Current Facility Internal ID

Note: The Death Date in the iQIES database is updated with the value in item 40 (Discharge Date) when item 44C (Was the patient discharged alive) equals 0 (No). | • Verify the old and new information.
• If the new information is correct, no action is required.
• If the new information is not correct, make appropriate modifications to the record and resubmit. |

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-1032	Inconsistent Version Number: The version number of the data specifications used for this submission file is not the current version.	Warning	**Consistency**	The submitted version number of the data specifications used for this record is not the current version.	Contact your software vendor.	Verify that the version number in the encoding software is correct.
-1038	Inconsistent 20A/20B: The Primary Payment Source (20A) cannot equal 02 or 51 if Secondary Payment Source (20B) equals 02 or 51.	Fatal	**Consistency**	The values submitted for Primary Payment Source (20A) and Secondary Payment Source (20B) are not consistent.	IF Secondary Payment Source is 2 or 51, THEN Primary Payment Source must not be 2 or 51.	• Make appropriate corrections to the record and resubmit. • Refer to the data specifications in effect for this record to identify the acceptable values for this item.
-1044	Non-Medicare Record: This non-Medicare record was rejected by the iQIES system.	Fatal	**Consistency**	Only Medicare records are accepted by the iQIES system.	• A Medicare record is one in which the value of Primary Payment Source (20A) or Secondary Payment Source (20B) is 02 or 51. • The value submitted for neither Primary Payment Source nor Secondary Payment Source was 02 or 51.	• Make appropriate corrections to the record and resubmit, if appropriate. • In the future, if the value of Primary Payment Source or Secondary Payment Source is not 02 or 51, do not submit the record to the iQIES System.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-1045	Invalid date: The date listed must be a valid date in YYYYMMDD format or one of the special allowed values.	Fatal	**Format**	The date submitted in this item is invalid or formatted improperly.	• A date must be in YYYYMMDD format or must contain a special allowed value noted in the data specifications. • The invalid date is displayed on the Final Validation Report in the exact format that it was submitted.	• Contact the vendor of your encoding software if the date format is incorrect. • Make appropriate corrections to the record and resubmit. • Refer to the data specifications in effect for this record to identify the acceptable values for this item.
-1046	Date Too Old: The date listed is more than 140 years in the past.	Fatal	**Consistency**	The submitted Birth Date (6) value is invalid.	Birth Date must not be more than 140 years earlier than the current date.	• Make appropriate corrections to the record and resubmit. • Refer to the data specifications in effect for this record to identify the acceptable values for this item.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-1047	Dates Out of Order: The dates listed are out of order or in the future.	Fatal	**Consistency**	The submitted dates are out of order or in the future.	Dates must occur chronologically as follows: • Birth Date (6) must precede or be the same as Date of Onset (23) • Date of Onset must precede or be the same as Admission Date (12) • Admission Date must precede or be the same as Assessment Reference Date (13) • Assessment Reference Date must precede or be the same as Discharge Date (40) • Discharge Date must precede or be the same as the submission date.	• Make appropriate corrections to the record and resubmit. • Refer to the data specifications in effect for this record to identify the acceptable values for this item.
-1053	Inconsistent Admission date: Admission Date (12) should be later than 1980.	Fatal	**Consistency**	The submitted Admission Date (12) value should be later than 1980.	Refer to the data specifications in effect for this record to identify the acceptable values for this item.	• Make appropriate corrections to the record and resubmit.
-1055	Failed CMG Calculation: CMG calculation could not be performed due to a system error.	Fatal	**Consistency**	No CMG value was calculated because of an error that was encountered in the iQIES system.	Resubmit this record when the iQIES system error is resolved.	• Notify the Help Desk.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-1056	Inconsistent CMG_CODE/CMG_VERSION: The submitted CMG_CODE/CMG_VERISON must match the calculated values.	Warning	**Consistency**	The submitted CMG code value does not match the CMG code value calculated by the iQIES system.	Contact your software vendor.	
-1057	CMG Not Recalculated: The CMG for this assessment was not recalculated as the Discharge Date is more than 27 months prior to the Submission Date.	Warning	**Consistency**	The iQIES system did not recalculate the CMG for this record because the Discharge Date is more than 27 months prior to the Submission Date.	Verify the Discharge Date	Make corrections to the record and submit a modification record, if appropriate.
-1060	Inconsistent 12/13. The Assessment Reference Date (13) usually must be two days later than the Admission Date (12).	Warning	**Consistency**	The submitted Assessment Reference Date (13) is not 2 days after the Admission Date (12).	To avoid this warning in the future, review assessment timing requirements.	Make corrections to the record and submit a modification record, if appropriate.
-1071	Unauthorized Submitter: The submitter's User ID is not authorized to submit data on behalf of the provider identified by the FAC_ID in this record.	Fatal	**Consistency**	The submitter's User ID does not have authority to submit for the provider associated with the FAC ID submitted in this record.	Confirm user has correct role and association to this provider.	• Make appropriate corrections to the record and resubmit. • Contact the Help Desk for additional assistance.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action

-1100	Incorrect Format: Invalid ICD-10 item format.	Fatal	**Format**	The submitted ICD-10 value is invalid. An ICD-10 code is an 8-position string of alphanumeric (A-Z, a-z, 0-9) characters with a decimal point as the 4th character.	• Formatting rules are:
					  o Character 1 must be alphabetic (A-Z, a-z)
					  o Character 2 must be numeric (0-9)
					  o Character 3 must be numeric or alphabetic
					  o Character 4 must be a decimal point
					  o Characters 5 through 8 must be numeric, alphabetic, or blank (^)
					  o If any character 5 through 8 is a blank (^), all subsequent characters must be a blank
					• If an ICD-10 item is not required, the submitted "No information" value must be a single blank (^).
						• Make appropriate corrections to the record and resubmit.
						• Refer to the data specifications in effect for this record to identify the acceptable values for this item.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-1101	Inconsistent 44D/45: If Discharge to Living Setting (44D) equals 01, then Discharge to Living With (45) cannot equal No Information/skipped (^). If Discharge to Living Setting (44D) does not equal 01, then Discharge to Living With (45) must equal No Information/skipped (^).	Fatal	**Consistency**	The values submitted for Discharge to Living With (45) and Discharge to Living Setting (44D) are not consistent.	• IF Discharge to Living Setting is 01, THEN Discharge to Living With must not be No information/skipped (^). • IF Discharge to Living Setting is not 01, THEN Discharge to Living With must be No information/skipped (^).	• Make appropriate corrections to the record and resubmit. • Refer to the data specifications in effect for this record to identify the acceptable values for this item.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-1102	Inconsistent 44C/44D/45: If Was Patient Discharged Alive (44C) equals 0, then Discharge to Living Setting (44D) and Discharge to Living With (45) must equal No Information/skipped (^). If Was Patient Discharged Alive (44C) equals 1, then Discharge to Living Setting (44D) must not equal No Information/skipped (^).	Fatal	**Consistency**	The values submitted for Discharge to Living Setting (44D) and Discharge to Living With (45) are not consistent with the value submitted for Was Patient Discharged Alive (44C).	• IF Was Patient Discharged Alive is 0, THEN Discharge to Living Setting and Discharge to Living With must not be No information/skipped (^). • IF Was Patient Discharged Alive is 1, THEN Discharge to Living Setting and Discharge to Living With must be No information/skipped (^).	• Make appropriate corrections to the record and resubmit. • Refer to the data specifications in effect for this record to identify the acceptable values for this item.

Error ID	Error Message	Severity	Type	Potential Cause	Tips	Action
-1105	Inconsistent 16A/17: If Pre-hospital Living Setting (16A) equals 01, then Pre-hospital Living With (17) must not equal No Information/skipped (^). If Pre-hospital Living Setting (16A) does not equal 01, then Pre-hospital Living With (17) must equal No Information/skipped (^).	Fatal	**Consistency**	The values submitted for Pre-hospital Living With (17) and Pre-hospital Living Setting (16A) are not consistent.	• IF Pre-hospital Living Setting is 01, THEN Pre-hospital Living With must not be No information/skipped (^). • IF Pre-hospital Living Setting **is** not 01, THEN Pre-hospital Living With must be No information/skipped (^). This is a skip pattern. If Pre-hospital Living Setting **is** not 01, then skip to Payment Source (20) or the next active item.	• Make appropriate corrections to the record and resubmit. • Refer to the data specifications in effect for this record to identify the acceptable values for this item.
-1106	Incorrect Format: If this item does not equal one of the allowed special values (if any), then the length of the submitted value must match exactly the maximum length of the item.	Fatal	**Format**	The value submitted for this item is not valid.	If the value submitted for this item is not one of the allowed special characters, the length must be the maximum length noted in the IRF-PAI Data Specifications.	• Make appropriate corrections to the record and resubmit. • Refer to the data specifications in effect for this record to identify the acceptable values for this item.
