1. Introduction

This user manual addresses how to add, review, manage, and edit surveys. This manual is not for Nursing Home or Long Term Care Survey Process. Please review [Manage a Survey: Long Term Care Facilities User Manual](#).

Limited information from surveys from all states can be viewed, but findings, intakes, notes, attachments, and letters cannot be viewed.

For information on other modules, review the [Reference & Manuals](#) on QTSO.

1.1 Getting Started in S&C – Important Information to Know

Below is important general information about iQIES.

- Log in to iQIES at <https://iqies.cms.gov/> with Health Care Quality Information Systems (HCQIS) Access Roles and Profile ([HARP](#)) login credentials. Review the [iQIES Onboarding Guide](#) for further information, if necessary.
- All screenshots included in this manual contain only test data. Current screens in iQIES may be different from what is shown in screenshots below.
- Screenshots are dependent on user role and may not be an exact representation.
- Words highlighted in blue are clickable links.
- A red asterisk (*) indicates a required field.
- Blank fields may have a limited number of characters allowed in that field. If so, the character limit is shown on the bottom left. The blank fields may also be expanded. Click the two 45° parallel lines and drag to the right to enlarge the box. See *Figure 1, Expandable Field*.

Figure 1: Expandable Field

- iQIES times out after 30 minutes of nonuse and reverts to the login page.
 - iQIES remains up and active as long as it is in use.
 - iQIES gives a five-minute warning before timing out.
 - The session resumes at the last accessed page after reauthentication.
 - Be sure to save data regularly. Pages that require saving are noted in this document, and have a **Save** button on the page.
- iQIES uses a smart search. Once three letters/digits are typed in the search bar, results are shown based on letters/digits entered. The more letters/digits entered, the narrower the search. If any of the results is the correct result, click the result to open.
- Review any notification banners. Some banners may have links to review further information; others may be a reminder of a task that must be completed. See *Figure 2, Notification Banner* and *Table 1, Notification Banner Color Descriptions*. These banners can be closed (X'd out) at any time.

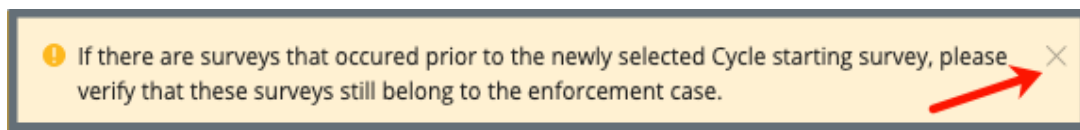

Figure 2: Notification Banner

Table 1: Notification Banner Color Descriptions

Notification Banner Color	Reason
Green	Action was successful
Blue	Informational only
Yellow	Warning. Review for information.
Red	Stop and review. The banner explains the actions must be taken.

- Review any Tool Tips for additional information to perform an action. Hover over the **i** icon to see the tip. Tool Tips are in iQIES to communicate information. Look for the information icon. See *Figure 3, Tool Tip Icon*.

1.3 Roles and Permissions

iQIES roles allow users to access information pertinent to their area of work. The examples provided in this document pertain to S&C and require a State Agency or Centers for Medicare & Medicaid Services (CMS) role with the capability to view or edit this information.

Permissions are ultimately governed by HARP access privileges. Contact the Security Official (SO) for your organization or the iQIES Service Center for issues relating to access and permissions. Review the [iQIES User Roles Matrix](#) for detailed information on roles.

For additional help, refer to <https://iqies.cms.gov/iqies/help> or click the help icon in the top right corner of the screen, see *Figure 4, Help Icon*, for further information.

Notes:

- CMS General Users see a selection for **Federal Monitoring Survey** under **Survey Categories**.
- Once the survey is saved, a survey ID is generated.
- The **H** in the survey ID signifies a health survey. The **1** signifies that this is the first visit for this health survey. See *Figure 21, Health Survey ID Explanation*. Subsequent numbers represent revisit surveys. For example, the first revisit survey has the same prefix, but it is followed by **H2**. Each subsequent revisit health survey will have a number increase. See [Create a Revisit Survey](#) for further information about revisit surveys.

4.1.6 Click **Edit** in the top right corner to edit the survey, if desired.

4.2 Add an LSC Survey

Purpose: To create an LSC survey that is not associated with a health survey. To create an LSC survey that is associated with a health survey, see [Link a Health Survey and an LSC Survey](#).

Notes:

The following must occur before an LSC survey can be created:

- A provider must be added to iQIES with its primary physical location.
- A building must be added to the provider. See the [Manage a Provider User Manual](#) on QTSO for further details, if needed.
- Each building has an LSC Form Indicator (LSC Regulation Set specific to provider types).
- An LSC survey can be linked to a health survey either during survey creation or after the survey is created.
 - Select a survey under **Linked Health Survey** to link an LSC survey to a health survey during the LSC survey creation.
 - Follow [Link a Health Survey and an LSC survey](#) steps to link the surveys after an LSC has been created.

4.2.1 Click **Add Survey** on the **Provider History** page. See *Figure 22, Add Survey*. The **Basic Information** page opens.

- **Regulation Sets** are applicable to the survey category selected.

4.2.4 Click **Save Basic Information** to save new survey. The new survey opens and can be edited.

Notes:

4.3 Link a Health Survey and an LSC Survey

Purpose: To create an LSC survey that is associated with a health survey in order that both surveys have the same ID prefix. To create an LSC survey that is not associated with a health survey, see [Add an LSC Survey](#).

Notes:

- There must be a building associated with the provider to link surveys. The **Life Safety Code Survey Type** radio button is disabled when there is no building associated with the provider.
- The example below shows how to create a new LSC survey and link it to an existing health survey. The process works the same way when creating a new health survey and linking it to an existing LSC survey.
- A linked survey cannot be unlinked.
- **Hospice providers** follow different linking requirements:
 - If no open building exists for the Hospice provider, the survey is exempt from required Health and LSC survey linking
 - If an open building exists, Health and LSC survey linking is required
- **ASC providers** must have a building associated with the provider. A Health Survey cannot be closed until a building is added and the required LSC survey is completed.

4.3.1 Go to the **Provider History** page for the provider.

4.3.2 Click **Link Survey** under the **Survey action** menu on the survey line. See *Figure 25, Link Survey*. The **Link Survey** page opens.

4.4 Add a Federal Monitoring Survey (FMS)

Warning: Do not associate a Health Comparative survey with an LTCSP survey until the LTCSP sample has been finalized. Creating a Health Comparative survey before sample finalization can result in data integrity issues that may require survey deletion and recreation.

Notes:

- An FMS can only be created and edited by a CMS General User (CMSGU). A revisit survey with an FMS can be created by the State Agency General User (SAGU).
- Only CMSGUs can add an attachment.
- Contact the Help Desk when a survey needs to be deleted.
- There must be a linked Health survey. The system allows selection of surveys whose LTCSP sample has not been finalized. This functionality supports FMS types such as Resource Support Surveys (RSS), which often occur concurrently with state survey activities.
- The CMSGU can restrict the SAGU from viewing the FMS.
- The SAGU is restricted from viewing the FMS as a default. The CMSGU can make the FMS available for the state to view. [See Make FMS Available for State Viewing](#)
- Review [FMS Details](#) for an overview of FMS details.

13.14 Create a Revisit Survey

Notes:

- A revisit is required when there are federal condition level deficiencies.
- A revisit is recommended when there are federal standard level deficiencies or state licensure deficiencies.
- The revisit can be set to **Not Required** on the [Plan of Correction](#) for any non-condition level citations to override the revisit recommendation for standard or licensure deficiencies. The revisit survey is then updated so that the citations that are marked **No Revisit Needed** in the original survey do not carry over to the revisit survey.
- **No Revisit Needed** cannot be unchecked for federal standard level deficiencies associated with condition level citations that remain open.
- A follow-up visit can be scheduled as necessary until all deficiencies are corrected.
- Confirm the following before creating a revisit survey:
 - All citations and findings have been added
 - The survey has an exit date
 - Citations are locked
 - The Plan of Correction (POC) information is complete
- Once a revisit survey is created, it cannot be deleted. Contact the [iQIES Service Center](#) for help, if necessary.
- If carried-over citations have been corrected during the follow up visit, go to the [Plan of Correction](#) on the revisit survey and add the corrected dates.
- A revisit may not be necessary for all citations. Review [Create a Revisit Survey for Specific Citations](#) for what to do when all citations do not need to have a revisit survey created.
- All revisits can be seen back to the previous survey. See [View Older Revisit Surveys](#).
- Not all user roles have view and edit access to FMS revisit surveys. See [User Roles Matrix](#) for details.

- 13.14.1 Click **Survey action** on the gray survey bar and select **Create Revisit** from the drop-down menu. See *Figure 101, Create Revisit Drop-Down Menu*. The **Basic Information** page opens.

Figure 101: Create Revisit Drop-Down Menu

Note: When citations are issued, a notification message appears in **Citations** and states: **A revisit is required for this survey.** A link to create a revisit survey is in the notification.

- 13.14.2 Update the page as necessary. Be sure to click **Save Basic Information**.

13.15 Create a Revisit Survey for Specific Citations

Purpose: To create a revisit survey for some, but not all, of the citations on a survey.

Notes:

- Once a revisit survey is created, it cannot be deleted. Contact the [iQIES Service Center](#) for help, if necessary.
- All federal citations in the survey are carried over to the revisit survey when a survey contains federal citations with condition-level tags. When this happens, all the **Needs Revisit** checkboxes are checked and disabled (grayed out).
- Once a revisit survey is created, all the **Needs Revisit** checkboxes in the survey prior to the revisit survey are disabled and cannot be edited.

13.15.1 Go to the **Plan of Correction** page and scroll to **Corrective Actions**.

13.15.2 Each citation has a **Needs Revisit** column. See *Figure 102, Needs Revisit Column*.

Note: The default response to **Needs Revisit** is **Yes**.

The screenshot shows the 'Corrective Actions' page. At the top right, there is a button labeled 'Edit All Actions' which is highlighted with a red box and an arrow. Below this, there is a table with the following columns: Citation ID, Immediate Jeopardy, Complete Date, Corrected Date, Correction Status, and Needs Revisit. The 'Needs Revisit' column is highlighted with a red box. The table contains four rows of data, all with 'Yes' in the 'Needs Revisit' column.

15. Immediate Jeopardy

Purpose: Immediate Jeopardy (IJ) is a situation in which the provider's noncompliance with one or more requirements of participation has caused or is likely to cause serious injury, harm, impairment, or death to a patient. Review the [Immediate Jeopardy Job Aid](#) for detailed information, including the IJ workflow.

15.1 Add IJ to a citation.

15.1.1 Add a citation. See [Citations](#) for more details.

15.1.2 Check the **Associated with Immediate Jeopardy** box. See *Figure 109, Add IJ to a Citation*.

The screenshot shows the 'Add Citations' window. At the top, there is a search bar with a magnifying glass icon and a 'Reset' button. Below the search bar, it says 'Search by citation tag number, title, or keyword'. There are two dropdown filters: 'Filter by: All Regulation Sets' and 'All Tag Types'. Below the filters, it says '1 - 20 of 239 Citations'. The main area displays a list of citations. Each citation has a title, a tag type (Memo or Condition), and a checkbox labeled 'Associated with Immediate Jeopardy'. The first citation is 'G0000 - INITIAL COMMENTS' (Memo). The second citation is 'G0350 - Release of patient identifiable OASIS info.' (Condition), and its checkbox is highlighted with a red box. The third citation is 'G0370 - Reporting OASIS information' (Condition). Each citation also has an 'Add' button.

15.1.3 Click **Add**.

15.1.4 Click **Save**. The **Citations** window opens.

Note: A Statement of Deficiency can be generated with IJ, but the date sent and a revisit survey cannot be created. **Lock IJs** bypasses this requirement and allows the citations not associated with IJ to move forward. All other citations must be updated.

15.2 Update any citations not associated with IJ. See [Add Findings](#), if necessary.

15.3 Click **Lock IJs**. See *Figure 110, Lock IJs*. The **Lock IJ Citations** window opens.

Notes:

- The **Lock IJs** box highlights in solid red when all conditions have been met.
- All citations associated with the survey are locked. They can be unlocked once the SOD is generated with **Date Sent**.

Figure 110: Lock IJs

15.4 Click **Lock as IJ**. See *Figure 111, Lock IJ Citations Popup Window*. The **Citations** page opens and a Statement of Deficiencies can now be generated with **Date Sent**.

- 15.5** Click **Statement of Deficiencies** on the left menu. The **Statement of Deficiencies** page opens.
- 15.6** Click **Generate Statement of Deficiencies**. The **Statement of Deficiencies** page shows additional fields.
- 15.7** Click the box next to **Include only IJ citations and memos** under **IJ Survey** on the **Statement of Deficiencies** page. See *Figure 112, IJ Citation Check Box*. Only the IJ citation is included on the SOD.

Notes:

- When an IJ citation is locked, an SOD can be generated with **Date Sent** when the non-IJ citation status is **Citation Status is Not Started**.
- An SOD can be created, but it cannot be generated with **Date Sent** prior to locking citations.

The screenshot displays the 'Statement of Deficiencies' form. On the left is a dark blue sidebar menu with options: Home Health Agency Deemed, Basic Information, Responsible Staff, Teams, Citations, FMS Details, Statement of Deficiencies (highlighted), Plan of Correction, CMS-670, Letters, Notes, and Attachments. The main content area is titled 'Statement of Deficiencies' and includes the instruction 'Select preferred options for Statement of Deficiencies form.' Below this, it states 'All required fields are marked with an asterisk (*)'. The 'Statement of Deficiencies' section has two radio buttons: 'CMS-2567 - Federal Statement of Deficiencies' (selected) and 'State Licensure Statement of Deficiencies'. The 'Federal Regulations' section has a checked checkbox for 'Emergency Preparedness (FED - E - 1.03)'. The 'IJ Survey' section, highlighted with a red rectangular box, contains an unchecked checkbox labeled 'Include only IJ citations and memos'. At the bottom, there are 'Format Options' with an unchecked checkbox for 'Include tag 9999', and two buttons: 'Download Form' and 'Cancel'.
