1. Introduction

This user manual addresses how to view and add a new intake, including involved parties, allegations, and responsible staff. Review the workflow in the next step to understand how the intake process works.

For information on other modules, refer to [Reference & Manuals](#) on QTSO.

1.1 Getting Started in S&C – Important Information to Know

Below is important general information about iQIES.

- Log in to iQIES at <https://iqies.cms.gov/> with [HARP](#) (Health Care Quality Information Systems (HCQIS) Access Roles and Profile) login credentials. Refer to [iQIES Onboarding Guide](#) for further information, if necessary.
- All screenshots included in this manual contain only test data. Current screens in iQIES may be different from what is shown in screenshots below.
- Screenshots are dependent on user role and may not be an exact representation.
- Words highlighted in blue are clickable links.
- A red asterisk (*) indicates a required field.
- Blank fields may have a limited number of characters allowed in that field. If so, the character limit is shown on the bottom left. The blank fields may also be expanded. Click the two 45° parallel lines and drag to the right to enlarge the box. See *Figure 1, Expandable Field*.

Figure 1: Expandable Field

- iQIES times out after 30 minutes of nonuse and reverts to the login page.
 - iQIES remains up and active as long as it is in use.
 - iQIES gives a five-minute warning before timing out.
 - The session resumes at the last accessed page after reauthentication.
 - Be sure to save data regularly. Pages that require saving are noted in this document, and have a **Save** button on the page.
- iQIES uses a smart search. Once three letters/digits are typed in the search bar, results are shown based on letters/digits entered. The more letters/digits entered, the narrower the search. If any of the results is the correct result, click the result to open.
- Review any notification banners. Some banners may have links to review further information; others may be a reminder of a task that must be completed. See *Figure 2, Notification Banner* and *Table 1, Notification Banner Color Descriptions*. These banners can be closed (X'd out) at any time.

Table 1: Notification Banner Color Descriptions

Notification Banner Color	Reason
Green	Action was successful
Blue	Informational only
Yellow	Warning. Review for information.
Red	Stop and review. The banner explains the actions must be taken.

- Review any Tool Tips for additional information to perform an action. Hover over the **i** icon to see the tip. Tool Tips are in iQIES to communicate information. Look for the information icon. See *Figure 3, Tool Tip Icon*.

1.3 Roles and Permissions

iQIES roles allow users to access information pertinent to their area of work. The examples provided in this document pertain to S&C and require a State Agency or Centers for Medicare & Medicaid Services (CMS) role with the capability to view or edit this information.

Permissions are ultimately governed by HARP access privileges. Contact the SO for your organization or the iQIES Service Center for issues relating to access and permissions. Refer to the [iQIES User Roles Matrix](#) for detailed information on roles.

For additional help, refer to <https://iqies.cms.gov/iqies/help> or click the help icon in the top right corner of the screen, see *Figure 4, Help Icon*, for further information.
