1. Introduction

This user manual addresses the processes necessary to perform Survey & Certification (S&C) Electronic Plan of Correction (ePOC) functions in iQIES.

For information on other modules, refer to [Reference & Manuals](#) on QTSO.

1.1 Getting Started in S&C – Important Information to Know

Below is important general information about iQIES.

- Log in to iQIES at <https://iqies.cms.gov/> with Health Care Quality Information Systems (HCQIS) Access Roles and Profile ([HARP](#)) login credentials. Refer to [iQIES Onboarding Guide](#) for further information, if necessary.
- All screenshots included in this manual contain only test data. Current screens in iQIES may be different from what is shown in screenshots below.
- Screenshots are dependent on user role and may not be an exact representation.
- Words highlighted in blue are clickable links.
- A red asterisk (*) indicates a required field.
- Blank fields may have a limited number of characters allowed in that field. If so, the character limit is shown on the bottom left. The blank fields may also be expanded. Click the two 45° parallel lines and drag to the right to enlarge the box. See *Figure 1, Expandable Field*.

Figure 1: Expandable Field

- iQIES times out after 30 minutes of nonuse and reverts to the login page.
 - iQIES remains up and active as long as it is in use.
 - iQIES gives a five-minute warning before timing out.
 - The session resumes at the last accessed page after reauthentication.
 - Be sure to save data regularly. Pages that require saving are noted in this document, and have a **Save** button on the page.
- iQIES uses a smart search. Once three letters/digits are typed in the search bar, results are shown based on letters/digits entered. The more letters/digits entered, the narrower the search. If any of the results is the correct result, click the result to open.
- Review any notification banners. Some banners may have links to review further information; others may be a reminder of a task that must be completed. See *Figure 2, Notification Banner* and *Table 1, Notification Banner Color Descriptions*. These banners can be closed (X'd out) at any time.

Table 1: Notification Banner Color Descriptions

Notification Banner Color	Reason

1.3 Roles and Permissions

iQIES roles allow users to access information pertinent to their area of work. The examples provided in this document pertain to S&C and require a State Agency or Centers for Medicare & Medicaid Services (CMS) role with the capability to view or edit this information, as well as an ePOC Provider Administrator role.

Permissions are ultimately governed by HARP access privileges. Contact the SO for your organization or the iQIES Service Center for issues relating to access and permissions. Refer to the [iQIES User Roles Matrix](#) for detailed information on roles.

For additional help, refer to <https://iqies.cms.gov/iqies/help> or click the help icon in the top right corner of the screen, see *Figure 4, Help Icon*, for further information.

2. ePOC Process

Purpose: ePOC allows healthcare providers to submit and manage their Plans of Correction (POC) electronically in response to identified deficiencies found during surveys conducted by CMS or state agencies.

This manual shows the Provider ePOC Administrator role with appropriate permissions.

- 2.1** The Survey Team User with appropriate permissions updates the status of the citation. Review [ePOC Overview](#) for details.
- 2.2** The Provider ePOC Administrator reviews the citations, then writes a POC or acknowledges the citation and updates the citation status. Review [Provider ePOC Administrator](#) for details.
- 2.3** The Survey Team User with appropriate permissions reviews and rejects or approves the POC. Review [Reject or Approve the POC](#).

Note: This process may take several iterations before a POC is finalized.

Notifications:

Each of the survey's Responsible Staff receives an email when the provider submits each citation's plan of correction and completion date for review.

The provider receives email alerts when:

- Citations that need a plan of correction are posted
- Citations that need acknowledgement are posted
- Citation POC is rejected
- Citation POC is accepted

3. Provider ePOC Administrator

Purpose: To review the citations, acknowledge or write a plan of correction.

Notes:

- The Provider ePOC Administrator role can view the posted Statement of Deficiencies and provide the Plan of Correction as well as completion dates for citations posted to the provider.
