Hospice providers access the CASPER Reporting application from their Welcome to the CMS QIES Systems for Providers page (Figure 2-1) by selecting the CASPER Reporting link.

Figure 2-1. Welcome to the CMS QIES Systems for Providers Page

![Image of Welcome to the CMS QIES Systems for Providers Page]

**CASPER Reporting Hospice Provider User’s Guide**
Login

Selecting the CASPER Reporting link from the Welcome page connects you to the QIES National System Login page (Figure 2-2) for CASPER Reporting.

Figure 2-2. QIES National System Login Page

Enter your QIES User ID login information in the appropriate fields and select the Login button. The CASPER Topics (Home) page displays (Figure 2-3).

Figure 2-3. CASPER Topics Page – Home Page Frame

The CASPER Topics/Home page includes a list of related topic links in the left navigation frame. Refer to the CASPER Topics section of this guide for more information.
The main body of the CASPER Topics page is the Home page frame. The Home page includes a “Welcome to CASPER” greeting and links to the functionality available in the CASPER Reporting application. The links and descriptions of the functionality they provide are included in the Home page frame:

- Logout – End current session and exit the CASPER Application
- Folders – View your output report folders and the documents in them
- Reports – Select report categories and request reports
- Queue – List the reports that have been requested but not yet completed
- Options – Customize the report format, number of links displayed per page and report display size
- Maint – Perform maintenance such as creating, renaming and/or deleting folders
- Home – Return to this page

The functionality provided by these links is also available on the CASPER Reporting application toolbar that is described below.

**Toolbar**

Across the top of each page of the CASPER Reporting application is a toolbar (Figure 2-4) with which you may access the CASPER Reporting application functionality.

**Figure 2-4. CASPER Reporting Application Toolbar**

The CASPER Reporting toolbar includes the following buttons:

- Logout
- Folders
- MyLibrary
- Reports
- Queue
- Options
- Maint
- Home

You can select the buttons of the CASPER Reporting toolbar in two ways:

- With the mouse, you may click on a button to access the functionality associated with that button.
• Keyboard users may use the following shortcut keys bring focus to items on the toolbar:

<table>
<thead>
<tr>
<th>Shortcut Keys</th>
<th>To Access</th>
</tr>
</thead>
<tbody>
<tr>
<td>Alt + l</td>
<td>Logout</td>
</tr>
<tr>
<td>Alt + s</td>
<td>Folders</td>
</tr>
<tr>
<td>Alt + y</td>
<td>MyLibrary</td>
</tr>
<tr>
<td>Alt + r</td>
<td>Reports</td>
</tr>
<tr>
<td>Alt + q</td>
<td>Queue</td>
</tr>
<tr>
<td>Alt + o</td>
<td>Options</td>
</tr>
<tr>
<td>Alt + m</td>
<td>Maint</td>
</tr>
<tr>
<td>Alt + g</td>
<td>Home</td>
</tr>
</tbody>
</table>

With focus on a button, press the Enter key to access the function associated with that button.

**Navigating the CASPER Reporting Application**

To begin using the CASPER Reporting application, select one of the buttons on the CASPER toolbar across the top of the **CASPER Topics** page (Figure 2-3, above) or a descriptive link in the **Home Page** frame.

If you select the **Reports** button [Alt + r] from the toolbar or the **Reports** link from the **Home Page** frame, you proceed to the **CASPER Reports** page where you may request reports. If you select the **Folders** button [Alt + s] or the **Folders** link, you proceed to the **CASPER Folders** page where you may view previously requested report output.

**NOTE:** Do not use the browser’s Back button. To make changes to the data or navigate between pages, use the links/buttons provided in the CASPER Reporting application.
REQUESTING REPORTS

1. Select the Reports button [Alt + r] from the CASPER toolbar to access the CASPER Reports page (Figure 2-5).

   Figure 2-5. CASPER Reports Page

   The Report Categories frame on the left lists the various report categories that are available to you. Some reports are restricted to specific users/user groups.

   The frame on the right lists the reports contained in the selected report category. This list may span multiple pages. Use the page number links at the bottom of the frame to navigate from one page to another.

2. To request a specific report, click the abbreviated report name displayed as a black underlined link in the right-hand frame of the page.

   The CASPER Reports Submit page (Figure 2-6) is presented for the selected report.
3. Specify the desired report criteria. If another page of criteria selections exists, select the **Next** button to proceed to it. The **Back** button returns you to the previous page. When you are finished specifying all of the desired report criteria, select the **Submit** button.

**NOTE:** Do not use the browser’s Back or Forward buttons. To make changes to the data or navigate between pages, use the links provided in the CASPER Reporting application.

**NOTE:** The criteria choices presented on the **CASPER Reports Submit** pages vary depending upon the specific report requested and the level of access assigned to you.

Refer to the individual report descriptions in subsequent sections of the CASPER Reporting Hospice Provider User’s Guide for report-specific criteria.

Following a report submission request, you receive verification that it was placed into the queue for processing (Figure 2-7).

**Figure 2-7. CASPER Reports Submit Verification Page**
If desired, select the Queue button [Alt + q] from the CASPER toolbar to view the status of a requested report. The CASPER Report Queue page (Figure 2-8) is presented.

**Figure 2-8. CASPER Report Queue Page**

The CASPER Report Queue page provides detailed information including the report’s position in the queue, the corresponding Queue ID, the name of the requested report, the processing status, and the duration (or time) the report has spent processing.

*Processing # of # Reports* tells you how many reports are currently being processed for all users in the nation. *Position* tells you where the report you submitted is in the queue. For example, if the *Position* is 2 of 3, this indicates that your report is next to be processed out of the 3 requests submitted nationwide.

The CASPER Queue page is refreshed every 7 seconds so that you can monitor the progress of your reports. When all of your reports are done processing, the CASPER Folders page is presented so that you can view the reports in the My Inbox folder.

**NOTE:** The length of time it takes to generate a report varies. You may consider logging off after requesting reports, and returning to the reporting system at a later time to retrieve them. However, some reports may process so quickly that they are delivered to your inbox before you can view them on the CASPER Queue page.

The completed report is delivered to the default folder, My Inbox, and is accessed by selecting the Folders button [Alt + s]. Refer to the Viewing, Printing, Saving And Exporting Reports section of this document for more information.

To request another report, select the Reports button [Alt + r] to return to the listing of reports.

The Back button [Alt + b] on the CASPER Report Queue page returns you to the previous page you were viewing.
SAVING REPORT CRITERIA

The CASPER Reporting application includes functionality that allows you to save the criteria you selected for a report so that you may run it at a later time without selecting all of the criteria again.

The last CASPER Reports Submit criteria page (Figure 2-9) for each report provides Template Folder and Template Name fields as well as Save and Save & Submit buttons for the purpose of saving the report criteria you selected.

Figure 2-9. CASPER Reports Submit Page

1. To save report criteria, select the desired criteria options, advancing as necessary through all of the CASPER Reports Submit criteria pages.

On the last CASPER Reports Submit criteria page, the generic name of the report you selected is defaulted into the Template Name field. You may save your template with this name, select another template name from the drop-down list, or create a new template name by typing in the Template Name field.

NOTE: If you select an existing template name from the drop-down list, the criteria previously saved in that template are replaced with the current criteria selections.

In the Template Folder field, My Favorite Reports is the defaulted folder name. You may save your template into this folder or create a new folder by typing the new folder name in the Template Folder field.

NOTE: The My Favorite Reports folder does not actually exist until you save a template to it. If you choose to save a template to the My Favorite Reports folder, it is created for you when you save the template.
2. Select or enter a name for your report criteria template in the Template Name field and a folder in which to save the template in the Template Folder field.

3. To run the report AND save the criteria for future use, select the Save & Submit button. The system responds with verification that the report was placed into the queue for processing (Figure 2-10). The template is saved into the folder you specified.

Figure 2-10. CASPER Reports Submit Verification Page

4. If you wish only to save the report criteria for future use, select the Save button. The system responds with verification that the report criteria template was saved into the folder you specified (Figure 2-11).

Figure 2-11. CASPER Reports Submit Verification Page – Template Saved
RUNNING AND MAINTAINING SAVED CRITERIA TEMPLATES

To view, run or maintain a report criteria template you saved, select the **MyLibrary** button [Alt + y] on the CASPER toolbar. The **CASPER My Library** page (Figure 2-12) is presented.

**Figure 2-12. CASPER My Library Page**

Your report criteria template folders are listed in the **My Library(s)** frame of the **CASPER My Library** page. The saved report criteria templates that are stored in the selected (highlighted) template folder are listed in the right-hand frame of the page.

**Viewing and Modifying Saved Criteria Templates**

The saved report criteria template names listed in the right-hand frame of the **CASPER My Library** page are links with which you may view the report criteria options saved in a template.

Select the report criteria template name link to view the **CASPER Reports Submit** criteria page(s) with the criteria options you previously saved. Review or modify the criteria as needed, using the **Next** button to advance through multiple pages, if applicable. You may save the template and/or submit the report from the final **CASPER Reports Submit** criteria page.

To view a synopsis of the saved criteria, with your mouse, point to and hover over the report icon in the Info column to the left of the template name. A **Report Arguments** pop-up box (Figure 2-13) containing the details of the saved criteria is presented.
Figure 2-13. Template Info – Report Criteria

When you click the Info icon, the **CASPER Document Info** page (Figure 2-14) is presented for the associated template. This page displays the saved criteria selections in addition to the date the template was created and the date it was last run. If needed, use your browser’s print function to print this page.

Figure 2-14. CASPER Document Info Page

### Running Reports From Saved Criteria Templates

To run one or more reports without first viewing or modifying the saved criteria, check the **Select** box(es) to the far right of the desired template(s) and select the **Rerun** button on the **CASPER My Library** page (Figure 2-12, above). All selected reports are placed into the queue for processing.

**NOTE:** Use the **SelectAll** button to place checks in the **Select** boxes for all of the report criteria templates in the selected folder. The **SelectAll** button then changes to an **UnSelectAll** button with which you may remove all checks in the **Select** boxes.
Moving Saved Criteria Templates

To move one or more templates in the selected template folder to another template folder, check the Select box(es) to the far right of the desired template(s) and select the Move button on the CASPER My Library page (Figure 2-12, above). The CASPER Template Move page (Figure 2-15) presents a list of the report(s) you selected.

Figure 2-15. CASPER Template Move Page

Open the To drop-down list and highlight the template folder to which you wish to move the selected template(s). Select the Save button.

From the CASPER Template Move page, you may also change a template name. Select a template displayed under the Template Name heading and type a new name.

When all changes are complete, select the Save button to retain the change.

Deleting Saved Criteria Templates

To delete one or more report criteria templates, check the Select box(es) to the far right of the desired template(s) and select the Delete button on the CASPER My Library page (Figure 2-12, above). A delete confirmation dialog box (Figure 2-16) is presented.

Figure 2-16. Delete Confirmation

Select the OK button to confirm the delete request. The CASPER DeleteCriteria page (Figure 2-17) is presented indicating the template(s) you successfully deleted.
NOTE: Upon deletion of all saved report criteria templates from a template folder, the system automatically deletes the template folder.
SHARED FOLDERS

Shared folders are “read-only” folders into which automatically-generated reports are distributed for your provider. One shared folder exists for and is visible to each provider. You may view the shared folder and the reports that it contains, but cannot alter, modify, delete, move, or rename these items.

Select the Folders button [Alt + s] from the CASPER toolbar to access the CASPER Folders page (Figure 2-18) and view the shared folders that are available to you.

Figure 2-18. CASPER Folders page - Shared Folder

NOTE: Shared folders are identified with an asterisk (*) on the CASPER Folders page. A shared folder’s name begins with a two-letter state abbreviation.

Provider-level users only see a shared folder for their provider; they cannot see or access shared folders for other providers. Corporate and third-party users see shared folders only for the providers for which they submit assessments. State Agency and QIO users may see all shared folders for their appropriate state(s). CMS users may see shared folders for every provider in the nation.
System-Generated Final Validation Reports

System-generated submission validation reports are placed in the shared folder named:

[State Code] HOSPC [Facility ID] VR

Where:

State Code = Your 2-character state code
HOSPC = Hospice
Facility ID = State assigned facility ID used for submitting HIS records
VR = Validation Report

To view the reports that were placed in a shared folder, select (click on) the folder name in the list of available folders in the left-hand frame of the CASPER Folders page. The names of the reports in that folder are listed in the right-hand frame of the page. Each report name is a link to the report.

System-generated Final Validation report names are formatted as follows:

[Submission Date & Time].[Submission ID]

For example, the name of the system-generated Final Validation report for a file that was submitted on 10/27/2014 at 2:54:32 p.m. and assigned a Submission ID of 12345 is:

10272014145432.12345
CMS, QIO, and State Agency Shared Folders Access

Because of the number of shared folders that are available to CMS, QIO, State Agency, and other users, a Search feature was implemented so that the specific provider folders of interest may be located and flagged for viewing. Shared folders are not visible on the CASPER Folders page by default to these users; those of interest must first be identified.

1. To search for a specific provider’s shared folder, select the Maint button [Alt + m] on the CASPER toolbar. The CASPER Maintenance page (Figure 2-19) is presented.

Figure 2-19. CASPER Maintenance Page

2. From the Select Folder Type field drop-down list, select the Hidden Folders option and then select the Select button.

3. From the Search drop-down list, indicate the type of search criteria you are supplying: Folder Name Contains, Provider Name, or Provider Number. Enter your search criteria text in the text box provided and select the Search button [Alt + k]. A list of the folders matching your search criteria is presented on the CASPER Shared Folder Search page (Figure 2-20).
For example, a CMS user may wish to perform a search using *Folder Name Contains* with an entry of "IA". The results of this search returns all shared folders for the state of Iowa.

**NOTE:** When entering search criteria, upper or lower case characters may be used. In order to narrow your results, be as specific as possible when searching for shared folders.

4. To specify the folders you wish to display on the **CASPER Folders** page, check the box under the *Visible?* heading corresponding to the provider folder(s), or select the **Show All** button to automatically check the box for every provider folders listed (Figure 2-20, above). Selecting the **Hide All** button removes all checkmarks.

5. After checking the desired boxes on the **CASPER Shared Folder Search** page, select **Save** to retain this setting.

Shared folders that are set as “visible” are presented on the **CASPER Maintenance** page as shown in Figure 2-21.
Figure 2-21. CASPER Maintenance Page – Visible Shared Folder

**NOTE:** The Hide Folder feature is available only to certain users. To hide unwanted folders, place a checkmark in the box under the Hide Folder heading associated with the folder(s) you wish to hide or select the Hide All button [Alt + j] to hide all of the folders listed. Select the Save button to retain these settings.

**NOTE:** Only System Administrators may delete shared folders.
VIEWING, PRINTING, AND SAVING INDIVIDUAL REPORTS

1. To view a completed report, select the Folders button [Alt + s] on the CASPER toolbar. The CASPER Folders page (Figure 2-22) is presented. Reports that you request are placed in your My Inbox folder. Select another folder if necessary. Links to the reports stored in the selected folder are listed in the right-hand frame of the page.

Figure 2-22. CASPER Folders Page – My Inbox

When you hover the mouse pointer over a report icon in the Info column in the right-hand frame of the page, details of the criteria selected to generate the report appear briefly (Figure 2-23).

Figure 2-23. CASPER Folders Page – Report Criteria Summary
NOTE: Use the report criteria information to identify the specific report you wish to view from a list of similar reports.

When you select a report Info icon, the CASPER Document Info page (Figure 2-24) is presented for the associated report. This page displays the criteria selections used to generate the report in addition to other characteristics of the report document.

Figure 2-24. CASPER Document Info Page

2. To view the report, click the underlined report name link from the My Inbox folder (Figure 2-22, above).

A report generated in the PDF format (Figure 2-25) displays in your browser with the Adobe Reader plug-in.
3. To locate specific text of interest in the displayed report, perform a Find function. The Find function [Ctrl + f] is available on the Edit menu for all report formats.

4. To print a displayed report, select the Print option from the browser’s File menu.

5. To save a displayed PDF-formatted report to your workstation or local network, select the Save As option from the browser’s File menu. Specify the name and destination location of your file.

NOTE: Other report formatting options include comma-separated values (CSV) and XLS for use with Microsoft Excel.
ZIPPING, PRINTING, AND SAVING MULTIPLE REPORTS

The CASPER Reporting application includes functionality that allows you to collect multiple reports into a single compressed (zipped) file that you may print and/or download to your workstation.

Using this zip functionality, you may print multiple reports with a single print command as follows:

1. From the **CASPER Folders** page (Figure 2-26), select the reports you wish to include in a zipped file by checking the checkbox under the *Select* heading associated with each report.

   **Figure 2-26. CASPER Folders Page – Reports Selected**

2. Select the **Zip** button.

   A Windows **File Download** dialog box (Figure 2-27) opens.
3. If you wish to print the one or more reports in their entirety immediately, select the **Open** button.

**NOTE:** If you prefer to save the zip file to your workstation so that you may readily view and/or print the reports it in the future, select the **Save** button.

A WinZip window (Figure 2-28) displays the contents of the zipped file.

4. Select (highlight) each report you wish to print.

**NOTE:** To highlight two or more reports, press and hold the Ctrl key as you select the reports.
5. From the *Application* menu just under the window’s title bar, select the *Print* option (Figure 2-29). Alternately, you may right-click on the desired report file and select the *Print* option. All pages of the selected report(s) are sent to your default printer.

**Figure 2-29. WinZip Application Menu**

![WinZip Application Menu](image)

**NOTE**: To print select pages from the zipped reports you must open each report individually.
CUSTOMIZING THE CASPER REPORTING TOOL

Maintaining Folders

My Inbox is the default folder and cannot be deleted. You can, however, change the name of this folder and create additional folders.

1. Select the Maint button [Alt + m] from the CASPER toolbar. The CASPER Maintenance page (Figure 2-30) displays.

Figure 2-30. CASPER Maintenance Page

2. To create a new folder, select the Insert button [Alt + i]. A NewFolder field is presented on the page. Specify the name for the new folder in the NewFolder field (Figure 2-31).

Figure 2-31. CASPER Maintenance Page – Insert New Folder

3. Select the Save button [Alt + c] to save the new folder.
Select the **Insert** button again to create another folder, or the **Return** button [Alt + u] to return to the **CASPER Folders** page.

4. To delete a folder you created, check the **Delete** box associated with that folder and select the **Save** button.

**Moving Reports**

The **CASPER Folders** page provides you with functionality to move reports from one folder to another.

1. To move one or more reports, check the **Select** box to the far right of each report you wish to move and select the **Move** button [Alt + n] (Figure 2-32).

![Figure 2-32. CASPER Folders Page - Moving Reports](image1)

2. The **CASPER Move** page (Figure 2-33) lists the report(s) you selected.

![Figure 2-33. CASPER Move Page](image2)
3. Open the drop-down list and highlight the folder to which you wish to move the report(s). Select the Save button.

From the CASPER Move page, you may also change a report title. Select a report displayed under the Document Name heading and type a name for the report that is more meaningful to you.

When all changes are complete, select the Save button to retain the change.

Deleting Reports

The CASPER Folders page also provides you with functionality to delete reports.

1. Place a check in the Select box to the far right of each report to delete on the CASPER Folders page (Figure 2-32, above) and select the Delete button [Alt + x]. A delete confirmation dialog box (Figure 2-34) is presented.

Figure 2-34. Delete Confirmation

2. Select the OK button to confirm the delete request. The CASPER Delete page (Figure 2-35) is presented indicating the report(s) you successfully deleted.

Figure 2-35. CASPER Delete Page
Other Customizations

As reports accumulate in a folder, the list of reports on the CASPER Folders page may expand to multiple pages. You can access specific pages of the list with the page number links (Figure 2-36) at the bottom of the frame.

Figure 2-36. CASPER Folders Page

To alter the number of reports per page that display in a folder, and further customize the CASPER Reporting application, select the Options button [Alt + o] from the CASPER toolbar. The CASPER Options page (Figure 2-37) is presented.

Figure 2-37. CASPER Options Page

The following items are currently available on the CASPER Options page:

- **Rows**: alters the number of reports available on each page and, therefore, the size of the report-viewing window. This setting must be between 5 and 50.
• **Allow Share**: displays when you have access to Shared Folders, but it cannot be modified. Only a CASPER Reporting Administrator can add or remove Shared Folder access.

• **OutputFormat**: specifies the format of report output: PDF, CSV, EXCEL, or PDF Accessibility Option. The default is PDF.

### NOTE:
When the **PDF** option is selected, reports are generated without accessibility tags for use with assistive reading equipment and software.

When the **PDF Accessibility Option** is selected, report output includes accessibility tags, if available. With the **PDF Accessibility Option** selected, if you run a report that does not include accessibility tags, no report is generated. Select the **Click here to see a listing of reports with Accessibility Option PDFs available to you** link to identify the CASPER reports that include accessibility tags and the report category in which each is found. You may also run report 1205D in the Audit Reports category to view a list of the reports that include accessibility tags.

• **ColorScheme**: allows color customization of the application colors. Select from: CMS, Footprints, Original, Lavender, Forest, Wood, and Winter.

• **ViewStyle**: allows customization of the layout of your CASPER Reporting application workspace. Select from: Classic and DDLB. The screen shots included in this manual depict the Classic ViewStyle.

After selecting the desired options, select the **Save** button [Alt + c].

The **Return** button [Alt + u] on the **CASPER Options** page returns you to the previous page you were viewing.
The *Topics* frame of the **CASPER Topics** page (Figure 2-38) provides instructions, notices and bulletins, helpful information, and downloadable files pertaining to the CASPER Reporting application.

**Figure 2-38. CASPER Topics Page**

The **CASPER Topics** page is presented with each successful login to the CASPER Reporting application. To access the **CASPER Topics** page anytime thereafter, select the *Home* button [Alt + g] on the CASPER toolbar.
VIEWING REPORTS OFFLINE

You can save PDF-formatted reports to a local drive and then view them with Adobe Reader at any time. Likewise, you can save and then view XLS- and CSV-formatted reports with Microsoft Excel. It is not necessary to be logged in to the CASPER Reporting application to view these types of reports offline.

**NOTE:** In order to be viewed offline, a report must first be saved to a local drive, workstation or other storage medium. Refer to the Viewing, Printing, And Saving Reports section for instructions.
A search feature is available on the CASPER Reports page (Figure 2-39). It returns a list of reports (only those to which you have access) matching the search criterion you entered. The search feature is especially helpful to users with access to multiple report categories and many reports.

Figure 2-39. Report Search Feature

To perform a search, enter the characters for which you wish to search in the Search text box and select the Search button [Alt + c]. Leave the textbox blank to receive a complete list of all reports to which you have access.

Report Category, Report Name, and Report Description are searched for the criterion entered. For example, if you enter “outcome” as the search criterion, all reports containing “outcome” in the Report Category, Report Name, or Report Description are listed (Figure 2-40).
Figure 2-40. Report Search Results

You may then click the underlined report name link to go to the criteria selection and submission page for a particular report.
