

# iQIES Hospice Provider Report Information

Beginning October 1, 2025, users will only be allowed to access and run the user-requested Hospice Provider reports in the Internet Quality Improvement and Evaluation System (iQIES). The only Provider reports that hospices will be allowed to access in the Certification and Survey Provider Enhanced Reporting (CASPER) system in the Quality Improvement and Evaluation System (QIES) will be the final validation reports which display detailed information about the Hospice Item Set (HIS) records submitted in QIES.

Below is some important information about the Hospice Provider reports in iQIES:

- iQIES will receive HIS-associated record, submission, and error data from QIES on an hourly basis between 10/01/2025 and 02/15/2026. Once the data has been received into iQIES, these data will be available for display in the iQIES Hospice Provider reports.
- Users' access to the iQIES reports will be like the access in the CASPER Reporting application, provided that your new iQIES role allows you access to generate and view reports.
- Users will only be allowed to run reports for the providers to which they have access.
- Users can schedule the Provider reports to run at their desired interval and frequency.
- In iQIES, users can initially view the report information on the screen and if desired, can then download the report to a Portable Document Format (PDF) or Comma-Separated Values (CSV) file.
- Submission IDs assigned to the submission files received in iQIES will have a different sequencing number. Here are some tips when reviewing reports where QIES and iQIES submission IDs display in the same report:
  - HIS submission files submitted in QIES will have a submission ID of less than 10,000,000.
  - HOPE submission files submitted in iQIES will have a submission ID of more than 10,000,000.

The table below lists the Hospice Provider reports that will be available in iQIES beginning October 1, 2025, including any transition details for the iQIES reports, such as report name changes and data availability.

Hospice Provider Reports Available in iQIES Beginning 10/01/2025			
CASPER Report Name	iQIES Report Name	Transition Details	Data Available
HIS Record Error Detail by Provider	Hospice Error Detail	Combination of the 'HIS Record Error Detail by Provider' and 'HIS Records with Error Number XXXX' reports into the 'Hospice Error Detail' report.
