1. Introduction

This user manual provides information for CMS, Providers, Vendors, Accrediting Organizations, Contractors, and State Agencies to effectively perform Report functions and the processes necessary to request, view, download, and save reports in iQIES.

1.1 Getting Started in Reports – Important Information to Know

Below is important general information about iQIES.

- Log in to iQIES at <https://iqies.cms.gov/> with HARP login credentials. Refer to [iQIES Onboarding Guide](#) for further information, if necessary.
- All screenshots included in this manual contain only test data. Current screens in iQIES may be different from what is shown in screenshots below.
- Screenshots are dependent on the user role and may not be an exact representation of each user's actual access.
- Words highlighted in blue on iQIES are clickable links.
- A red asterisk (*) indicates a required field.
- To select more than one value in a list, click one value then press **Ctrl** on the keyboard (or **control** on a Mac keyboard).
- Review any yellow/orange notification banners. See *Figure 1, Notification Banner*. These banners can be closed (X'd out) if they do not apply or they are resolved.

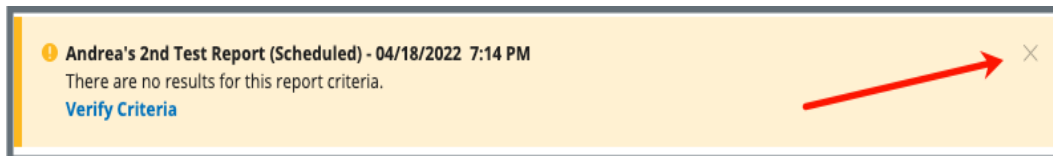

Figure 1: Notification Banner

- Below are the supported browsers for access to iQIES. **Do not use Internet Explorer.** It is not supported. Be sure to keep your browser updated.

For best results, please use the latest version of these browsers:

[Chrome](#)

[Firefox](#)

The latest versions of the browsers below are also supported:

[Microsoft Edge](#)

[Safari](#)

1.2 iQIES Service Center

The iQIES Service Center supports users working within the various iQIES components: Survey and Certification (S&C), Patient Assessment, and Reporting.

For assistance accessing iQIES: Contact the iQIES Security Officer (SO) for your organization

For technical support: Contact the iQIES Service Center:

Phone: 800-339-9313

Email: iQIES@cms.hhs.gov

CCSQ Support Central: Create a new ticket or track an existing ticket:
https://cmsqualitysupport.servicenowservices.com/ccsq_support_central

Idea Portal: Feedback for future iQIES software development: [CCSQ Support Central](#). Click **Idea Portals**.

More information on iQIES: Refer to the [QIES Technical Support Office](#) (QTSO) and the [Quality, Safety, & Education Portal](#) (QSEP). Logging in to HARP may be required before accessing some documentation in QTSO and QSEP.

1.3 Roles and Permissions

iQIES roles allow users to access information pertinent to their area of work. The examples provided in this document pertain to iQIES reports.

Access to the reports listed in Appendix A, List of Reports Generated on Demand, is available based upon the user's iQIES role.

Permissions are ultimately governed by HARP (Healthcare Quality Information System (HCQIS) Access Roles and Profile) access privileges. Contact the Security Official (SO) for your organization or the iQIES Service Center for issues relating to access and permissions.

Refer to the [iQIES User Roles Matrix](#) for detailed information on roles and permissions in iQIES.

For additional help, refer to <https://iqies.cms.gov/iqies/help> or click the help icon in the top right corner of the screen, see *Figure 2, Help Icon*, for further information.

Figure 2: Help Icon

2. Manage a Report

Most iQIES roles have access to run reports. Available report types are determined by the iQIES role. Access to reports is in the top tab, **Reports**. See *Figure 3, Reports Tab*.

This section addresses how to identify when new reports are available, and how to find, save, download, and otherwise manage a report.

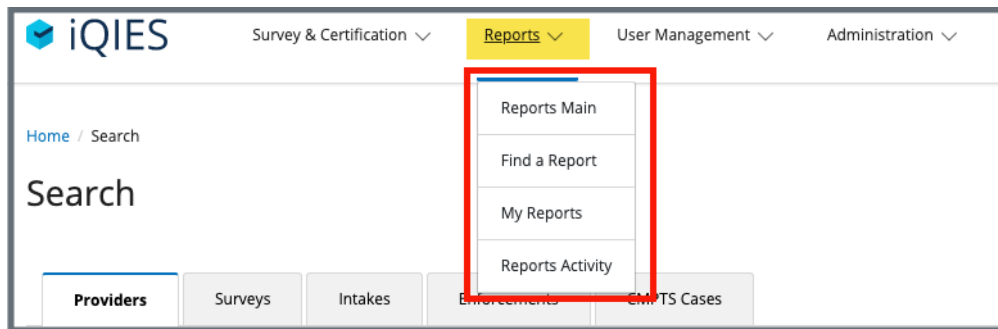

Figure 3: Reports Tab

2.1 New Reports Available

Purpose: To notify the user when a new report has been automatically added to their [My Reports](#) folder. See *Figure 4, New Reports Available*.

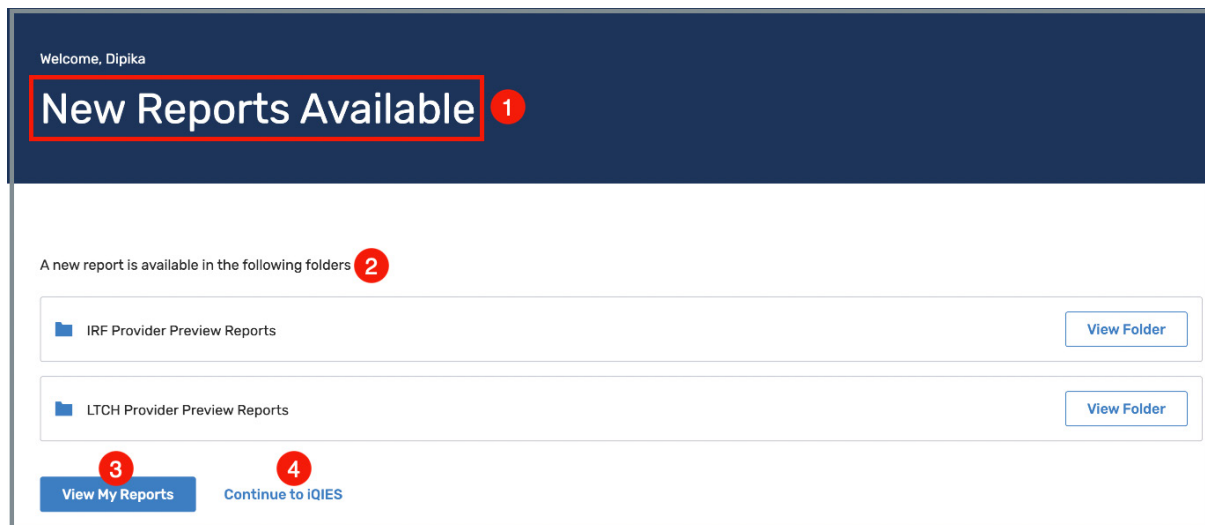

Figure 4: New Reports Available

Table 1: New Reports Available Callouts

Callout	Detailed Explanation
1	New Reports Available shows on the landing page when a new report has been automatically added to the My Reports folder.
2	<p>The notification shows the folder where the report was added. Click View Folder next to the folder to view the report.</p> <p>Notes:</p> <ul style="list-style-type: none"> There may be more than one report added. In the example above, there are two new reports. The New Reports Available notification disappears once View Folder is selected.
3	Click View My Reports to go to the My Reports landing page. All existing reports can be viewed. Refer to the My Reports section of this manual for further details.
4	Click Continue to iQIES to go directly to iQIES landing page.

2.2 Find a Report with Category and Type

Purpose: To find a specific report when the category and type are known.

- 2.2.1 Click **Find a Report** on the top menu **Reports** tab to find specific reports. See *Figure 5, Find a Report*. Refer to [Appendix A: List of Reports](#) for a detailed list of all reports in alphabetical order.

The screenshot shows the 'Find a Report' page. At the top, there is a breadcrumb 'Home / Find a Report' and a yellow header 'Find a Report'. Below the header is the instruction 'Search by report keyword, category, or type.' There is a 'Report Keyword' section with a dropdown menu. The dropdown menu is open, showing options: 'Select one', 'Maintenance', 'Provider', 'Quality Measure' (which is selected and highlighted in blue), and 'Survey & Certification'. Below the dropdown are two buttons: 'Find Report' and 'Reset'.

Figure 5: Find a Report

- 2.2.2 Select a **Report Category** from the drop-down list to access report types.
- 2.2.3 Select a report type from the **Report Type** drop-down menu. See *Figure 6, Sample Report Types*.

The screenshot shows the 'Find a Report' page. At the top, there is a breadcrumb 'Home / Find a Report' and a yellow header 'Find a Report'. Below the header is the instruction 'Search by report keyword, or category and type.' There is a 'Report Keyword' section with a text input field. Below that is a 'Report Category' section with a dropdown menu showing 'Quality Measure'. To the right of the 'Report Category' dropdown is a 'Report Type' dropdown menu, which is open and highlighted with a red box. The 'Report Type' dropdown menu shows options: 'Select one', 'Review and Correct', 'Facility-Level Quality Measure', 'Threshold', and 'Resident/Patient-Level Quality Measure'. Below the dropdowns are two buttons: 'Find Report' and 'Reset'.

Figure 6: Sample Report Types

2.2.4 Click **Find Report**. The **Search Results** show the available reports for that report type. The example shows results from **Facility-Level Quality Measure** report type. See *Figure 7, Find Report Search Results*.

Note: To view all reports within a specific category, select the desired report category only (leave the report type unselected), then click **Find Report**.

Report	Actions
Agency Patient-Related Characteristics (Case Mix) Report Provides the mean value of each OASIS patient-related characteristics (patient attributes or circumstances) measure for episodes of care that ended during two specified periods (current and prior) for the agency, along with national reference mean values for the current period.	Run Report
HHA Process Measures Report Displays, for each process quality measure, measure rates for episodes of care that ended during two specified periods (Current and Prior), as well as the national observed rate. Data are not available in these reports for Current or Prior Period Start Dates prior to 01/2018.	Run Report
Outcome Report Provides utilization outcome mean measure rates, physiologic, functional, cognitive, and emotional status end-result outcome measure rates, and claims-based outcome measure rates for an agency's patients with episodes of care that ended (for end-result outcomes) or began (for claims-based outcomes) in a specified period. It compares these findings to a national reference standard and a prior period for the agency. Some measures have risk-adjustment, in which case the prior measure value will be risk-adjusted. Data are not available in these reports for Previous or Current Start Dates prior to 01/2018.	Run Report
Potentially Avoidable Event Report Provides risk-adjusted Potentially Avoidable Event mean measure rates for episodes of care that ended during two specified periods (current and prior) and compares these findings to a national reference. Data are not available in these reports for Previous or Current Start Dates prior to 01/2018.	Run Report

2.3 Find a Report with Keywords

Purpose: To find a specific report when the title, category, and type are not all known.

2.3.1 Click **Find a Report** on the top menu **Reports** tab. Refer to [Appendix A, List of Reports](#) for a detailed list of all reports in alphabetical order.

2.3.2 Type a report name or partial words in the **Report Keyword** box. See *Figure 8, Report Keyword*.

Notes:

- Do not use special characters, including quotation marks or hyphens.
- Select the **Report Category** to narrow down the search results, if desired

2.6 Save a Report

Purpose: To save a report.

- 2.6.1 Click **Save to My Reports** on the **Reports** page to save any report. See *Figure 17, Save to My Reports Popup Window*. The Report Name/Folder popup window opens.

Figure 17: Save to My Reports Popup Window

- 2.6.2 Type the report name in the blank field.

- 2.6.3 Select the folder.

Note: The default folder is **My Reports**. Refer to step 2.9, [My Reports](#), on how to create folders or retrieve a saved report.

- 2.6.4 Click **Save**.

- 2.6.5 Verify a green banner shows that the report was successfully saved.

2.7 Download a Report

Purpose: To download a report.

Click **Download** on the **Reports** page and select the desired report-specific format (PDF, CSV, or Excel) from the drop-down menu. See *Figure 18, Download a Report*. A **Download Progress** bar opens when the PDF option is selected. The report appears in your computer's **Downloads** folder or double-click and open it from the Downloads bar on the bottom of the screen.

Note: Excel only appears in the drop-down menu under Download when the report is available in Excel.

2.8 Reports Main

Purpose: To access frequently-run reports.

Click **Reports Main** on the top menu **Reports** tab to view **Frequently Run Reports**. It is possible to find or view reports from this window. See *Figure 19, Frequently Run Reports*.

Note: These are frequently-run reports. Other reports may be available.

The screenshot shows the 'Reports Main' page with a navigation bar at the top containing 'Home' and 'Reports Main' (highlighted in yellow). Below the navigation bar is a yellow 'Reports' header. A message states: 'Current and accurate reporting is vital to quality healthcare. Access past and frequently run reports below.' There are two buttons: 'Find Report' and 'View My Reports'. The main content area is titled 'Frequently Run Reports' and contains a table with the following data:

HHA List – No Successful Production Submissions Report	Maintenance	OASIS Assessment Maintenance	The HHA List – No Successful Production Submissions report provides a list of all HHAs (active or terminated) who have had no OASIS submissions, or providers who have had submissions but no accepted OASIS assessments in iQIES for the selected time period. Only State Agency and CMS users are allowed to view/run this report.
HHA Activity Report	Provider	Submission	Displays a list of accepted assessments, including modification and inactivation requests submitted by or on behalf the selected agency during the user specified period.
HHA Roster Report	Provider	Roster	Displays the patients for whom the last submitted RFA is 01, 03, 04, or 05, and M0090 is prior to the current date by no more than 180 days for one or more select agencies.

Report Name		Report Category	Report Type	Report Purpose
	HHA Discharge Report	Provider	Admission/ Discharge	Provides information about the patients discharged from the selected agency during the specified period.
	OASIS Agency Final Validation	Provider	Validation	Contains detailed information regarding all records for the agency contained in the submission file. This includes the number of records that were accepted or rejected, if any, encountered.
	OASIS Submitter Final Validation Report	Provider	Validation	<p>Contains detailed information regarding the records contained in the user defined submission file. This includes the number of records that were accepted or rejected, as well as warning and fatal errors for the records.</p> <p>This report can only be requested by the original assessment submitter. Use the Submission ID to request the report.</p>
	HHA Error Summary by Agency	Provider	Error	Summarizes the errors encountered in submissions by the selected agency during a specified period.

Report Name		Report Category	Report Type	Report Purpose
	OASIS Error Detail Report	Provider	Error	Displays assessment information and error details for user selected error numbers and submission date within the requested date range where selected errors were encountered in successful submissions made by or on behalf of the selected agency. Included in the report are the OASIS items and submitted data that caused the selected error to occur.
	Agency Patient-Related Characteristics (Case Mix) Report	Quality Measure	Facility Level Quality Measure	Provides the mean value of each OASIS patient-related characteristics (patient attributes or circumstances) measure for episodes of care that ended during two specified periods (current and prior) for the agency, along with national reference mean values for the current period.
	Agency Patient-Related Characteristics (Case Mix) Tally Report	Quality Measure	Resident/Patient-Level Quality Measure	Displays, for the selected agency and timeframe, each episode of care used in the calculation for the Agency Patient-Related Characteristics measures and the calculated value for each measure. Patient characteristics with a percent sign (%) included in the characteristic description are those characteristics that are either present or absent. Values are presented in the report as "y" if the patient characteristic was present, "n" if the patient characteristic was not present, and "-" if data were not available.

Report Name		Report Category	Report Type	Report Purpose
	HHA Process Measures Report	Quality Measure	Facility Level Quality Measure	Displays, for each process quality measure, measure rates for episodes of care that ended during two specified periods (Current and Prior), as well as the national observed rate. Data are not available in these reports for Current or Prior Period Start Dates prior to 01/2018.
	HHA Review and Correct Report	Quality Measure	Review and Correct	Allows providers to review their QM data to identify if there are any corrections or changes needed to the assessment-based data prior to the quarter's data submission deadline, which is 4.5 months following the end of the reporting quarter. The report will provide a breakdown by measure and by quarter, of the HHA's assessment-based QM data for four rolling quarters. The report also identifies whether each quarter's data correction period is open or closed as of the report run date. The report output will also provide patient-level data in a CSV format the user can access via the user's My Reports page.

Report Name		Report Category	Report Type	Report Purpose
	HHA Tally: Outcome Report	Quality Measure	Resident/Patient-Level Quality Measure	Displays, for the selected agency and timeframe, each episode of care that was used in the calculations for the Outcome Report. For each episode of care, the patient's name, SOC/ROC Date, Branch ID, and the outcome measure value will be listed. The following values may be present: 'y' indicates the measure was achieved; 'n' indicates the measure was not achieved; '-' indicates there was no data available; and '/' indicates the stay was excluded from the measure.
	HHA Tally: Process Report	Quality Measure	Resident/Patient-Level Quality Measure	Displays, for the selected agency and timeframe, each episode of care that was used in the calculations for the Process Measures Report. For each episode of care, the patient's name, SOC/ROC Date, Branch ID, and the process measure value are listed. The following values may be present: 'y' indicates the measure was achieved; 'n' indicates the measure was not achieved; '-' indicates there was no data available; and '/' indicates the stay was excluded from the measure.

Report Name		Report Category	Report Type	Report Purpose
	Outcome Report	Quality Measure	Facility Level Quality Measure	Provides utilization outcome mean measure rates, physiologic, functional, cognitive, and emotional status end-result outcome measure rates, and claims-based outcome measure rates for an agency's patients with episodes of care that ended (for end-result outcomes) or began (for claims-based outcomes) in a specified period. It compares these findings to a national reference standard and a prior period for the agency. Some measures have risk-adjustment, in which case the prior measure value will be risk-adjusted. Data are not available in these reports for Previous or Current Start Dates prior to 01/2018.
	Potentially Avoidable Event: Patient Listing Report	Quality Measure	Resident/Patient-Level Quality Measure	Lists each of the Potentially Avoidable Event measures, statistics for each, and the patients who experienced those events for a select agency during a specified period.

Report Name		Report Category	Report Type	Report Purpose
	Potentially Avoidable Event Report	Quality Measure	Facility Level Quality Measure	Provides risk-adjusted Potentially Avoidable Event mean measure rates for episodes of care that ended during two specified periods (current and prior) and compares these findings to a national reference. Data are not available in these reports for Previous or Current Start Dates prior to 01/2018.
Hospice				
	Hospice Activity Report	Provider	Submission	Displays a list of accepted records and inactivation requests that were submitted by or on behalf of select providers during a specified period.
	Hospice Admissions/HUVs/ Discharges Report	Provider	Admission/Discharge	Provides information about the patients who were admitted to, had HUVs submitted and/or were discharged from the selected provider during the specified period.
	Hospice Error Detail Report	Provider	Error	Displays assessment information and error details for user selected error numbers and submission date within the requested date range where selected errors were encountered in successful submissions made by or on behalf of the selected provider. Included in the report are the assessment items and submitted data that caused the selected error to occur.

Report Name		Report Category	Report Type	Report Purpose
	Hospice Error Number Summary by Provider	Provider	Error	Summarizes the errors encountered in Hospice records submitted by or on behalf of select providers during a specified period.
	Hospice Record Errors by Field by Provider Report	Provider	Error	Summarizes by provider and Error Numbers the errors encountered in submitted HIS records during a specified period by select Hospices.
	Hospice Final Validation Report	Provider	Validation	Displays detailed information about the status of select submission files for the provider. The report indicates whether the records submitted in each were accepted or rejected and details the warning and fatal errors encountered.
	Hospice Roster	Provider	Roster	Displays a list of patients for the selected providers, for whom the most recent accepted Hospice record is not a discharge record (A0250 = 09) and the target date is less than 36 months prior to the report run date.
	Hospice Submission Statistics by Provider Report	Provider	Submission	Summarizes the submissions made by or on behalf of select providers during a specified period.
	Hospice Submitter Final Validation	Provider	Validation	<p>Displays detailed information about the status of a select submission file.
